5 Annex I Aircraft: Verification of noise emission (STC, MOD, Kit, etc. - with effect on the noise data).

For the issuing of a noise certificate, it must be demonstrated that the noise emission does not exceed the noise limit value specified in § 8 ZLV 2005. The required noise measurement reports or evidence of the noise value (according to § 3 (4) ZLV 2005) shall be enclosed with the application.

6 Supplements (Please enclose copies of the following documents with the application unless otherwise stated).

- Old noise certificate
- Work report on the installation of the new parts or features (if applicable)
- EASA Form 1 or equivalent (of engine, propeller etc. - if modified)
- Certificate of release to service of the aircraft, aircraft logbook (if applicable)

7 Digital aircraft certificates

Instead of printed certificates the applicant applies for the issuance of digital aircraft certificates (see LTH 78). Additionally, the applicant confirms that they have established an Austrian certified electronic mailbox which is legally required for the submittal of digital certificates. They also agree that printed certificates will be issued and delivered by mail service if the certified electronic delivery fails for reasons within the applicant's control. The applicant also acknowledges the terms of use for digital certificates in accordance with LTH 78.

8 Signature Operator

It is confirmed that no other noise-relevant technical modifications have been made to the aircraft and that the noise values determined during the noise measurement apply to this aircraft.

Note: Noise-relevant modifications may also result in changes to the noise certificate.
